

Continuing Competence

Your questions answered... your training needs satisfied

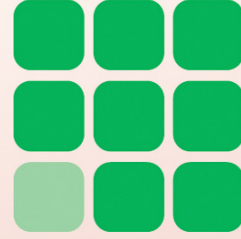

If you hold a Certificate of Technical Competence or are Deemed Competent then this affects you!

Continuing Competence is a new requirement introduced by Environmental Permitting Regulations to ensure individuals are proficient.

The test is required to demonstrate on-going competence as a Competent Manager under this scheme.

SWRAC provides regular courses to update your knowledge and understanding of relevant changes which affect your activities, ensure compliance with permits and prepare you for the test.
