

Cup Recycling at Leonardo Helicopters

April 12th saw the start of mixed cup recycling at Leonardo Helicopters in Yeovil. The cup collection is in partnership with Simply Cups, who gave a presentation at the SWWMG waste meeting on September 14th. Cups collected will be recycled and made into items such as pens, desk tidies, place mats and even park benches. It has been recognised for a while that cups were going to an energy for waste plant rather than being recycled. Now they are being recycled it will further improve the Company's recycling figures and will enable over half a million cups a year to be recycled.
